## Celebrating the transformative power of sensory and rhythmic experience.

Introducing Underdog Crew Studios “Festival of the Senses”. Story led music workshops, world food creation and tasting experiences, and our meditative sensory arena where smell, touch and projection whisks curious minds away to exotic realms. Tailored towards SEN children, ‘Festival of the Senses’ provides a diverse range of emotionally nourishing experiential workshops involving all the senses, allowing all levels of ability to come away with positive experiences.

From the scent of the amazon rainforest and cool morning mists of the Zambezi river, to hypnotic rhythms of a distant galaxy and the swirling echoes of the cosmos, young minds will be opened to empowering new experiences. And they may even get to snack on a bit of alligator or exotic fruit along their magical sensory journey.

**\*\* WHAT WE NEED?** A grass space of around 20 square metres and access to power. Indoor workshops can be created too... **but you can't beat the festival vibe!**

**The Underdog Crew CIC.** A not for profit community interest organisation (No: 14530067). [www.underdogcrew.org](http://www.underdogcrew.org)
